LOGESH E

Professional Summary

Aspiring MERN Stack Developer with a strong academic background in Computer Applications and hands-on experience in creating dynamic web applications. Skilled in React.js, Node.js, MongoDB, and API integration, seeking to contribute to innovative projects by leveraging my technical expertise

InternShip

Smart Web Technologies,Coimbatore
Nov 2024 - Dec 2024

- Collaborated on the INTER PRO module, a registration and login system with subscription plan management.
- Developed backend services for plan expiry tracking using Node.js and MongoDB, ensuring data integrity and efficient database queries.
- Integrated AI capabilities for enhanced user experiences and automated decision-making processes.
- Secured sensitive user data with password hashing and salting.

Projects

INTER PRO Registration & Login Module
Company: Smart Web Technologies

- Created a subscription plan management system with features for registration, login, and plan expiry tracking.
- Used React.js for the frontend and Node.js with Express.js for backend API creation.
- Enhanced security by implementing password hashing with salt.
- Introduced AI integration for personalized user recommendations and automated workflows (ongoing).

Weather Application

- Developed a weather forecasting app using React.js and Vite,.
- Integrated third-party APIs for live data and ensured cross-browser compatibility.
- Delivered a mobile-friendly design using CSS and responsive layout techniques
- Deployed the app successfully, demonstrating skills in frontend development.

Educational Background

The American College

Bachelor of Commerce With Computer Applications
with a cgpa of 53.33
June-2021 - April 2024

Contact

Core Skills

- Programming: JavaScript (ES6+), HTML, CSS
- Frameworks & Tools: React.js, Node.js, Express.js, MongoDB
- Other Tools: Git, Vite, Postman, RESTful APIs
- Soft Skills: Analytical Thinking, Team Collaboration, Adaptability

Technical Tools

- Frontend Technologies: React.js, HTML, CSS
- Backend Technologies: Node.js, Express.js
- Database: MongoDB
- Version Control: Git, GitHub

Languages

- English
- Tamil

Certification

- MERN Stack Development –Simpler Academy, August 2024 - November -2024
- Proficient in JavaScript, React.js, Node.js, and MongoDB for creating scalable web applications.
- Python Programming – SSI Education July 2023 -September-2023

Interests

- Exploring AI technologies and their integration into web applications.
- Learning advanced backend architecture and optimization techniques.
